

# Take back control of your international flows.

Supply Chain, Transport & Customs Consultant

**Axel Bogiraud Tato Leon**

Founder — STRANEXO • June 2026

## DIAGNOSIS

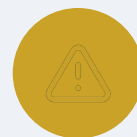

# Does this sound familiar?

*You're managing the urgency and absorbing rising costs. But are your international flows really under control?*

### Unpredictable transport costs

They keep rising without you really understanding why.

### Customs risks that are hard to anticipate

A single documentation error can quickly become costly and delay your shipments.

### Limited visibility into your flows

It's hard to know where your real vulnerabilities lie.

### An organization struggling to keep pace

Your company is growing faster than your Supply Chain.

## THE REALITY

# It's not complexity that wears down your organization.

*It's the absence of a clear framework and diluted accountability that drive up costs, delays, and internal friction.*

AXEL BOGIRAUD TATO LEON — STRANEXO

Decisions delayed, made under pressure, without a full picture.

Excessive reliance on a few key people or external providers.

Logistics overspend and customs risks that stay invisible until they become costly.

FREE TOOL

# The STRANEXO Index

Assess the maturity of your international flows.

An online assessment built for industrial and food & beverage SMEs and mid-market companies. In just a few minutes, identify your vulnerabilities and priority actions — even before our first conversation.

flows

## HOW I HELP

# My five areas of expertise.

### **Diagnostic & Audit**

A fact-based assessment of your situation, to prioritize action before any decision is made.

### **International Flow Optimization**

Analyzing your logistics patterns to strengthen your competitiveness and protect your margin.

### **Customs & International Trade**

Securing your customs practices to stay on top of your obligations and limit risk.

### **Transport (Domestic / Europe / International)**

Sourcing and securing your carrier panel, at every geographic scale.

### **Fractional Supply Chain / Logistics / Transport Direction**

A part-time Supply Chain, Logistics, or Transport Director, without a full-time hire.

## MY PACKAGES

# Clear formats, tailored to every need.

### Diagnostic & Audit

#### Logistics Flash Diagnostic

A first assessment to quickly identify your optimization levers.

---

#### International Logistics Performance Audit

A comprehensive strategic audit to optimize the cost and performance of your flows.

---

#### Customs Audit & Compliance

Secure your operations and reduce the risk of penalties.

### Structuring & Transformation

#### Export Process Structuring

Implement robust, well-documented export processes.

---

#### Import Process Structuring

Implement robust, well-documented import processes.

---

#### Combined Import + Export Package

A comprehensive, high-value structuring of your flows.

### Transport

#### Transport Flash Diagnostic

A first assessment of your transport organization and quick optimization levers.

---

#### Carrier Panel Audit & Compliance

Evaluate, rank, and secure your carrier panel to make your operations more reliable.

---

#### Transport Management Dashboard Setup

Build reliable tracking of your transport costs, lead times, and performance, as a stand-in for or complement to a TMS.

*Pricing for each package is provided as a custom quote, after an initial conversation.*

## MY PACKAGES

# A package designed to support the steering of your priorities over time.

### FLAGSHIP PACKAGE

## Fractional Supply Chain Direction

Is your company growing faster than your Supply Chain organization can keep up? I step in as a part-time Supply Chain Director to structure your operations and support the steering of your priorities and your teams.

### WHAT'S INCLUDED

-  Monthly steering of your Supply Chain priorities.
-  Structuring of processes and teams.
-  Shared reporting and performance indicators.
-  Ongoing support for your teams.

A part-time Supply Chain Director, without a full-time hire.

*Priorities clarified, teams supported, results measured.*

*Custom quote, tailored to the size and challenges of your organization.*

## METHOD

# How we work together.

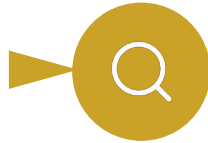

01

### A clear mandate

Scope, objectives, and timeline defined upfront.

02

### A fact-based analysis

Financial and operational data to build an objective view of the situation.

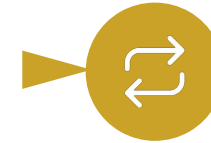

03

### Prioritized recommendations

Prioritized by impact and feasibility, with measurable indicators.

04

### A clean handoff

Knowledge transfer and deliverables your teams can put to work.

## USE CASES

# Support tailored to your challenges.

### Structuring a fast-growing Supply Chain

Building a more robust organization to support your growth and improve operational steering.

### Strengthening the competitiveness of international flows

Analyzing your logistics patterns, identifying optimization levers, and securing your import-export operations.

### Securing customs operations

Making your practices more reliable, limiting regulatory risk, and strengthening compliance across your international trade.

### Securing an international carrier panel

Benchmarking, structuring, and securing your domestic, European, and international carrier panel.

WHY STRANEXO

## Concrete reasons to trust me.

### **Total independence**

Recommendations made solely in your interest, with no dependence on carriers, freight forwarders or customs brokers.

---

### **A comprehensive view of your flows**

Transport, customs, procurement, Supply Chain: every decision is analyzed as a whole.

---

### **A single point of contact**

From diagnosis to implementation, you work with a single expert — available and invested.

---

### **A pragmatic approach**

Concrete solutions, tailored to your organization, focused on lasting results.

---

## BY THE NUMBERS

# Expertise built in the field.

14+

years of operational experience

Up to 25%

in margin identified

20+

companies supported

Valence & Paris,  
France

core service regions

## CASE IN POINT

*Rate renegotiation that avoided a proposed increase of over 4% and secured roughly a 15% reduction on existing rates (~€60K in additional annual margin); a switch to an optimized billing structure with a second logistics partner generated an additional ~40% margin gain compared to the prior year.*

## ABOUT

# An independent, hands-on expert.

**Axel Bogiraud**  
**Tato Leon**

Founder, STRANEXO

## 14 years on the ground in international flows.

After 14 years steering international flows, procurement, customs operations, and Supply Chain organizations in demanding industrial environments, I founded STRANEXO to put that expertise to work for the leaders of SMEs and mid-market companies, in complete independence.

## INDUSTRIES SERVED

Industrial

Food & Beverage

Cosmetics

Textiles

Machinery

Chemicals

Explosives

*Historically active in the Valence (Drôme) region and Paris, France.*

## NEXT STEP

# Let's talk about your international challenges.

Let's discuss your situation and identify the first opportunities for improvement together.
